

Muhammad Fahad

AI & Machine Learning Developer

Pakistan | fahadfaadi829@gmail.com | [GitHub](#) | [LinkedIn](#) | [Fiverr](#)

SUMMARY

Software Engineering student and freelance AI developer specializing in machine learning and Python-based automation. Experienced in building end-to-end solutions from data cleaning and model training to deploying functional web applications. Currently deepening skills in deep learning and full-stack development with React.

EDUCATION

BS Software Engineering — University of Engineering and Technology (UET) Lahore
2024 — Present (Expected 2028)

EXPERIENCE

Freelance AI & Automation Developer 2024 — Present

- Delivered a data cleaning and preprocessing project for a small business client, transforming inconsistent spreadsheet records into a structured, analysis-ready dataset using Python and Pandas.
- Built a Python automation script for a client to eliminate manual, repetitive Excel/CSV reporting work, reducing weekly processing time significantly.
- Developed a machine learning classification model for a client project, covering data preprocessing, model training, and evaluation using Scikit-learn.
- Communicated directly with clients via Fiverr to scope requirements, deliver working solutions, and iterate based on feedback.

PROJECTS

Forest Cover Type Prediction — [GitHub](#)

- Machine learning classification model predicting forest cover type from cartographic data, with a GUI for making predictions without touching code. (Scikit-learn)

House Price Prediction — [GitHub](#)

- Regression model predicting house prices from property features, covering the full pipeline from preprocessing to evaluation. (Scikit-learn)

SMS Spam Detection — [GitHub](#)

- Text classification model flagging spam messages using CountVectorizer for feature extraction. (NLP, Scikit-learn)

Steakway Restaurant Management System — [GitHub](#)

- Restaurant management system with a C# frontend, handling orders, billing, and table management.

SKILLS

Languages: Python, JavaScript, C++, C#, SQL, HTML, CSS

Frontend: React, Tailwind CSS, Responsive Design

Backend: FastAPI

Machine Learning: Scikit-learn, Pandas, NumPy, TensorFlow (Learning), PyTorch (Learning)

Databases: SQL Server, MySQL

Tools: Git, GitHub, VS Code, Vercel

SERVICES

- AI Web Applications & Machine Learning Solutions
- Data Cleaning & Preprocessing
- Excel & CSV Automation
- Python Automation & REST APIs (FastAPI)
- Data Analytics
